

## 'Success and Respect for All'

### Our School Vision

*"through creativity, challenge and connection, we unlock our true potential"*

#### **Aim:**

At Allerton Bywater Primary School, our aim is to nurture and develop the whole child rather than simply their academic potential. Our mission is to instil in our children five core values we believe are the cornerstone of success.

#### **Core Values:**

##### **Resilience**

We teach our children the skills to deal with failure, rejection or criticism and equip them with the tools to bounce back when things go wrong.

##### **Aspiration**

We develop aspiration in our children by exposing them to an array of opportunities and instilling in them a sense of possibility and passion to pursue what they enjoy regardless of their gender, social background or ethnicity.

##### **Respect**

We foster a respect for all people in the community through courtesy, kindness and consideration for all people's beliefs, feelings and property.

##### **Honesty**

We encourage our children to not just speak the truth, but also to act truthfully, by being able to both recognise the right choice to make and how to go on to make that choice.

##### **Confidence**

We nurture confidence by helping children to take ownership of their own learning and equipping them with the knowledge that they can rely on their own skills and strengths to succeed.
